## 1. Aims

The aims of relationships and sex education (RSE) at our school are to:

- Provide a framework in which sensitive discussions can take place
- Prepare students for puberty, and give them an understanding of sexual development and the importance of health and hygiene
- Help students develop feelings of self-respect, confidence and empathy
- Create a positive culture around issues of sexuality and relationships
- Teach students the correct vocabulary to describe themselves and their bodies

## 2. Statutory requirements

As a secondary academy school we must provide RSE to all students as per section 34 of the [Children and Social work act 2017](#).

In teaching RSE, we are required by our funding agreements to have regard to [guidance](#) issued by the secretary of state as outlined in section 403 of the [Education Act 1996](#).

At Plympton Academy we teach RSE as set out in this policy.

## 3. Policy development

This policy has been developed in consultation with staff, students and parents. The consultation and policy development process involved the following steps:

1. Review – a member of staff or working group pulled together all relevant information including relevant national and local guidance
2. Staff consultation – all school staff were given the opportunity to look at the policy and make recommendations
3. Parent/stakeholder consultation – parents and any interested parties were invited to provide their viewpoint via a survey. Due to COVID regulations, we were unable to hold a meeting within school. Parents will be invited to a meeting about the policy in the summer term 2022 when the curriculum and resources will be reviewed.
4. Student consultation – we investigated what exactly students want from their RSE
5. Ratification – once amendments were made, the policy was shared with governors and ratified

## 4. Definition

RSE is about the emotional, social and cultural development of students, and involves learning about relationships, sexual health, sexuality, healthy lifestyles, diversity and personal identity.

RSE involves a combination of sharing information, and exploring issues and values.

RSE is not about the promotion of sexual activity.

## 5. Curriculum

Our curriculum is set out as per Appendix 1 but we may need to adapt it as and when necessary.

We have developed the curriculum in consultation with parents, students and staff, taking into account the age, needs and feelings of students. If students ask questions outside the scope of this policy, teachers will respond in an appropriate manner so they are fully informed and don't seek answers online.

## 6. Delivery of RSE

RSE is taught within the Preparation for Life tutorial sessions and in the fortnightly Personal Development lesson as part of the Personal Development programme. Biological aspects of RSE are taught within the science curriculum, and other aspects are included in RS (Religious Studies lessons)

RSE focuses on giving young people the information they need to help them develop healthy, nurturing relationships of all kinds including:

- Families
- Respectful relationships, including friendships
- Online and media
- Being safe
- Intimate and sexual relationships, including sexual health

For more information about our RSE curriculum, see Appendices 1 and 2.

These areas of learning are taught within the context of family life taking care to ensure that there is no stigmatisation of children based on their home circumstances (families can include single parent families, LGBT parents, families headed by grandparents, adoptive parents, foster parents/carers amongst other structures) along with reflecting sensitively that some children may have a different structure of support around them (for example: looked after children or young carers).

## 7. Roles and responsibilities

### 7.1 The governing board

The governing board will approve the RSE policy, and hold the Principal to account for its implementation.

The governing board will hold the Principal to account for the implementation of this policy.

### 7.2 The Principal

The Principal is responsible for ensuring that RSE is taught consistently across the school, and for managing requests to withdraw students from non-statutory/non-science components of RSE (see section 8).

### 7.3 Staff

Staff are responsible for:

- Delivering RSE in a sensitive way
- Modelling positive attitudes to RSE
- Monitoring progress
- Responding to the needs of individual students
- Responding appropriately to students whose parents wish them to be withdrawn from the non-statutory/non-science components of RSE

Staff do not have the right to opt out of teaching RSE. Staff who have concerns about teaching RSE are encouraged to discuss this with the Principal.

The RSE curriculum is written and developed by Annabel Biscoe (Head of PSHE) overseen by the Assistant Principal for Personal Development with Heads of Year overseeing its delivery in each year group.

## **7.4 students**

Students are expected to engage fully in RSE and, when discussing issues related to RSE, treat others with respect and sensitivity.

## **8. Parents' right to withdraw**

Parents have the right to withdraw their children from the non-statutory/non-science components of sex education within RSE up to and until 3 terms before the child turns 16. After this point, if the child wishes to receive sex education rather than being withdrawn, the school will arrange this.

Requests for withdrawal should be put in writing using the form found in Appendix 3 of this policy and addressed to the Principal.

A copy of withdrawal requests will be placed in the student's educational record. The Principal will discuss the request with parents and take appropriate action.

Alternative work from the Healthy Lifestyles curriculum will be given to students who are withdrawn from sex education which they will complete unsupervised in the LRC.

## **9. Training**

Staff are trained on the delivery of RSE as part of their induction and it is included in our continuing professional development calendar.

All staff are given the opportunity to take part in online CPD run by Brook and the National College.

The Principal will also invite visitors from outside the school, such as school nurses or sexual health professionals, to provide support and training to staff teaching RSE.

## **10. Monitoring arrangements**

The delivery of RSE is monitored by Ian Hartley (Assistant Principal), the Head of PSHE and Heads of Year through:

- Monthly learning walks by the Head of PSHE who share paperwork with Ian Hartley (Assistant Principal)
- Termly learning walks by the Senior Leadership Team.

Students' development in RSE is tracked and monitored through self assessment at the start and end of each unit.

This policy will be reviewed by Ian Hartley (Assistant Principal) annually. At every review, the policy will be approved by the governing body.
