Paper 2: B5 Homeostasis and Response

Coordination and control (Nervous system)

- Revise
- Test

Coordination and control (Endocrine system)

- Revise
- Video
- Test

Hormones in human reproduction

- Revise
- Video
- Test

Sample exam Questions

- MCQ, 1 – 6 markers
- Math's & practical qs

Scan QR Code

B6 Reproduction, genome, gene expression

- Revise
- Video
- Test

B6 Genetic Inheritance

- Revise
- Video
- Test

B7 Variation

- Revise
- Test

B7 Evolution

- Revise
- Test

B7 Classification of living organisms

- Revise
- Test

Sample exam Questions

- MCQ, 1 – 6 markers
- Math's & practical qs

Paper 2: B6 Inheritance & B7 Variation and evolution

Scan QR Code

Paper 2: B8 Ecology

Adaptations, interdependence and competition

- Revise
- Test

Organisation of an ecosystem

- Revise
- Video
- Test

Biodiversity and the effect of humans

- Revise
- Test

Sample exam Questions

- MCQ, 1 – 6 markers
- Math's & practical qs

Past Papers

Knowing how to answer questions in a way that scores marks is an important skill

Whenever you have spare time, work your way through past papers

Don't worry if you can't print them, just write your answers on lined paper.

You don't have to do the whole paper at once, you could do 20-minute blocks for example

Mark the paper yourself using the mark scheme. Anything you are unsure on bring to me and we can go through it in my Wednesday revision sessions
